The block diagram illustrates the system architecture. It includes an attitude recognition unit (106) connected to a mode switching unit (107). The mode switching unit (107) is connected to a main unit (100). The main unit (100) contains a control unit (108), a system memory (203), and a mounting recognition unit (202). The control unit (108) is connected to the system memory (203) and the mounting recognition unit (202). The control unit (108) is also connected to a display unit (104). The mounting recognition unit (202) is connected to a memory card (204) and a mounting pad (201). The memory card (204) is connected to the mounting pad (201).
